NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1 CORPORATE INFORMATION

Orezone Gold Corporation (the “Company”) was incorporated on December 1, 2008, under the Canada Business Corporations Act, and is listed on the Toronto Stock Exchange (“TSX”) and the Australian Securities Exchange (“ASX”) under the symbol ORE, and on the OTCQX under the symbol ORZCF. The Company is a West African gold producer engaged in mining, developing, and exploring its 85%-owned Bomboré gold mine (“Bomboré”) in Burkina Faso. The Bomboré mine entered into commercial production on its Phase I oxide operations on December 1, 2022, and is now expanding operations by finalizing the construction of stage 1 of its Phase II hard rock process plant and infrastructure (“Phase II Expansion”) that is expected to materially increase annual and life-of-mine gold production from the processing of hard rock mineral reserves. On August 13, 2025, the Company’s Board of Directors approved the stage 2 construction of the Phase II Expansion of the Bomboré mine that is designed to increase the hard rock process plant nameplate from 2.5 million tonnes per annum (“Mtpa”) to 5.5 Mtpa, thereby further expanding future annual gold production.

The address of the Company’s principal office is 505 Burrard Street, Suite 450, Vancouver, British Columbia, Canada, V7X 1M3.

References to “\$” are to United States dollars, references to “C\$” are to Canadian dollars, references to “A\$” are to Australian dollars, references to “EUR” are to Euro and references to “XOF” are to West African Communauté Financière Africaine francs.

2 BASIS OF PRESENTATION

(a) Statement of compliance

These unaudited condensed interim consolidated financial statements (the “Interim Financial Statements”) have been prepared in accordance with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”). These Interim Financial Statements do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2024 (the “2024 Annual Financial Statements”), which have been prepared in accordance with IFRS.

These financial statements were authorized for issue by the Board of Directors on November 12, 2025.

(b) Basis of measurement

The preparation of condensed interim consolidated financial statements in accordance with IFRS requires management to make estimates and judgments that may have a significant impact to these Interim Financial Statements. Estimates are continuously evaluated and are based on management’s experience and expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates. The Company’s critical accounting estimates and judgments were presented in Note 4 of the 2024 Annual Financial Statements and have been consistently applied in the preparation of these Interim Financial Statements for the three and nine months ended September 30, 2025, and 2024.

(c) Basis of consolidation

The subsidiaries of the Company and their principal activities as at September 30, 2025 are as follows:

Name of subsidiary	Place of incorporation	Ownership interest	Principal activity
Orezone Inc.	British Virgin Islands	100%	Holding company
Orezone Inc. SARL	Burkina Faso	100%	Exploration
Orezone Bomboré SA	Burkina Faso	85% ¹	Bomboré Gold Mine

¹ Effective August 19, 2025, the free-carried equity interest in Orezone Bomboré S.A. held by the State of Burkina Faso was increased from 10% to 15% in accordance with the State’s new 2024 Mining Code. Refer to Note 11 for additional details.

(d) Changes in accounting standards

Issued but not yet effective – Amendments to IFRS 9 and IFRS 7 – Amendments to the Classification and Measurement of Financial Instruments

In May 2024, the IASB issued *Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)*. The amendments update classification and measurement requirements in IFRS 9 Financial Instruments and related disclosure requirements in IFRS 7 Financial Instruments: Disclosures. Included in the amendments is clarification on the recognition and derecognition date of certain financial assets and liabilities and amended requirements relating to the settling of financial liabilities using an electronic payment system. The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with early adoption permitted. The Company is currently assessing the future impact of the amendments to its financial statements.

Issued but not yet effective – IFRS 18 – Presentation and Disclosure of Financial Statements

In April 2024, the IASB issued IFRS 18, *Presentation and Disclosure of Financial Statements (IFRS 18)*, which replaces IAS 1, *Presentation of Financial Statements*. The standard introduces a specified structure for the income statement by requiring income and expenses to be presented into the three defined categories of operating, investing, and financing, and by specifying certain defined totals and subtotals. IFRS 18 requires companies to disclose explanations around these measures, which are referred to as management-defined performance measures. Further, IFRS 18 also provides additional guidance on principles of aggregation and disaggregation which apply to the primary financial statements and notes. IFRS 18 is effective for reporting periods beginning on or after January 1, 2027, including for interim financial statements, with retrospective application required and early adoption is permitted. The Company is currently assessing the impact that IFRS 18 will have on its financial statements when adopted.

3 TAXES RECEIVABLE

	September 30, 2025	December 31, 2024
Opening balance	\$36,366	\$20,421
Additions	24,578	18,603
Reimbursements	(8,741)	(23)
Finance expense	(365)	(737)
Foreign exchange gain (loss)	5,678	(1,898)
Closing balance	\$57,516	\$36,366
Current taxes receivable	\$12,232	\$18,635
Non-current taxes receivable	\$45,284	\$17,731

Taxes receivable consists of Value Added Tax (“VAT”) due from the Burkina Faso fiscal authorities. The Company is following the relevant procedures to claim a reimbursement of VAT paid. The VAT balances are not in dispute and are deemed to be fully recoverable, though timing of VAT reimbursements remain uncertain, and the timing of receipt is based on management’s best estimate.

4 INVENTORIES

	September 30, 2025	December 31, 2024
Stockpiled ore	\$105,259	\$88,163
Materials and supplies	10,399	8,172
Finished goods	7,844	2,414
Gold-in-circuit	2,767	1,745
Total inventories	\$126,269	\$100,494
Current inventories	\$21,745	\$12,793
Non-current stockpiled ore	\$104,524	\$87,701

The cost of inventories recognized as an expense in the three and nine months ended September 30, 2025, were \$28,977 and \$94,986 (September 30, 2024 - \$33,557 and \$93,568), and were included in operating expenses.

At September 30, 2025, non-cash costs of \$5,281 (December 31, 2024 - \$3,196) relating to depreciation and depletion were included in inventory.

Stockpiled ore is valued at the lower of weighted average cost and net realizable value (“NRV”). At September 30, 2025, non-current stockpiled ore is carried at its weighted average cost. NRV of non-current stockpiled ore is calculated on a discounted cash flow basis over the estimated processing timeframe for such ore. For the three and nine months ended September 30, 2025, no write-down or write-down reversal was recorded (September 30, 2024 - \$nil and \$8,881 write-down reversals). Significant assumptions in recognizing the NRV write-down reversals of \$nil and \$8,881 for the three and nine months ended September 30, 2024 were long-term gold price (\$2,031 per ounce), discount rate (7%), mine life (10-years), and costs to complete, with the long-term gold price and the discount rate having the most significant impact to the NRV.

5 OTHER ASSETS

	September 30, 2025	December 31, 2024
Prepaid expenses	\$9,802	\$7,389
Deferred financing costs	368	1,031

Other receivables	2,868	3,175
Total other assets	\$13,568	\$11,905
Current other assets	\$13,200	\$10,874
Non-current other assets	\$368	\$1,031

Non-current other assets consist of deferred financing costs related to the Phase II senior debt facility (Note 8).

	September 30, 2025	December 31, 2024
Opening balance	\$1,031	-
Additions	-	2,062
Transaction costs allocated to principal drawdown	(663)	(1,031)
Closing balance	\$368	\$1,031

For the year ended December 31, 2024, the Company made a drawdown of XOF 17.5 billion (\$27.9 million) under the Phase II senior debt facility. Deferred financing costs of \$1,031 were allocated to the drawdown.

For the three and nine months ended September 30, 2025, the Company made drawdowns of XOF 5.0 billion (\$8.9 million) and XOF 6.25 billion (\$11.2 million) under the Phase II senior debt facility. Deferred financing costs of \$295 and \$368 were allocated to each of the drawdowns, respectively.

Bomboré, Burkina Faso

The Company's material mineral property right is the Bomboré mine. The Company has performed a review for indicators of impairment. No such indicators were identified as of September 30, 2025, or December 31, 2024.

Mine Development relates to the construction of the Phase II Expansion at the Bomboré mine. For the three and nine months ended September 30, 2025, \$1,514 and \$4,069 (September 30, 2024 - \$nil and \$nil) of borrowing costs were capitalized to Mine Development (Note 8(b)).

Construction in Progress relates to on-going capital projects at the Bomboré mine, including the back-up diesel power plant, tailings storage facility expansion, and community resettlements.

During the three and nine months ended September 30, 2025, \$1,151 and \$2,085 (September 30, 2024 - \$173 and \$717) of depreciation and depletion were included in inventory. In addition, during the three and nine months ended September 30, 2025, \$21 and \$62 (September 30, 2024 - \$26 and \$77) and \$12 and \$37 (September 30, 2024 - \$13 and \$37) of depreciation was included in general and administrative costs and exploration and evaluation costs, respectively.

(a) Phase I senior debt

The Phase I senior debt is a project-level debt with Coris Bank International SA (“Coris”) and was originally divided into a medium-term loan and a short-term loan. The medium-term loan of XOF 40.0 billion bears interest at 9.0% per annum and is repayable in monthly principal instalments that started in October 2023 and matures in September 2026. The short-term loan of XOF 17.5 billion bore interest at 8.0% per annum, had a term of 12-months, and was repaid in 2023. The Phase I senior debt is secured by a pledge of assets of the Bomboré mine and a parental company guarantee.

The Company made principal repayments totalling XOF 3.0 billion (\$5.3 million) and XOF 9.0 billion (\$15.3 million) on the medium-term loan during the three and nine months ended September 30, 2025 (September 30, 2024 – XOF 3.0 billion (\$4.9 million) and XOF 9.0 billion (\$14.9 million)). At September 30, 2025, XOF 16.0 billion (\$28.6 million) of principal remained outstanding on the medium-term loan (December 31, 2024 – XOF 25.0 billion (\$39.6 million)).

(b) Phase II senior debt

On December 19, 2024, the Company closed its XOF 35.0 billion senior secured debt with Coris to help fund the construction costs of the Phase II Expansion. The Phase II senior debt is a project-level debt that matures in September 2027, bears interest of 11.0% per annum, and is available in multiple draws. The Company made its first drawdown of XOF 17.5 billion (\$27.9 million) on December 23, 2024. The second and third drawdowns of XOF 5.0 billion (\$8.9 million) and XOF 6.25 billion (\$11.2 million) were made on August 29, 2025, and September 29, 2025, respectively. Monthly principal repayments are scheduled to commence in January 2026 with early repayments permitted with a prepayment fee of 2%. The Phase II senior debt is secured by the same security as that held for the Phase I senior debt.

Transaction costs for loan origination, legal, and due diligence totalling \$2,062 (Note 5) were incurred on the Phase II senior debt. At September 30, 2025, XOF 28.8 billion (\$51.4 million) of principal was outstanding on the Phase II senior debt (December 31, 2024 – XOF 17.5 billion (\$27.7 million)).

The Company capitalized to Mine Development the following Phase II senior debt borrowing costs for the three and nine months ended September 30:

	THREE MONTHS ENDED		NINE MONTHS ENDED	
	September 30, 2025	September 30, 2024	September 30, 2025	September 30, 2024

Accretion	132	-	337	-
Other finance costs	408	-	1,145	-
Total capitalized borrowing costs	\$1,514	-	\$4,069	-

(c) Bridge loan

The Company closed and drew on a bridge loan for gross proceeds of XOF 12.0 billion (\$19.8 million) with Coris on May 10, 2024. The bridge loan bore monthly interest of 10% per annum and was repaid in full on December 18, 2024.

(d) Convertible note facility

The convertible note facility was fully drawn on October 19, 2021, bears interest at 8.5% per annum, has a term of 5 years, and matures on October 15, 2026. Interest is payable quarterly and up to 75% in common shares at the Company's option. The note is non-callable with principal due on maturity.

On December 20, 2024, certain terms of the convertible note facility were amended (the "Convertible Amendment") in order to secure the consent of the note holders for the Phase II senior debt. These amendments consisted of a 2.0% per annum consent fee and a reduction in the conversion price from \$1.08 per share to \$0.70 per share (the "Conversion Price"). The Company may elect to convert up to 50% of the outstanding principal at the Conversion Price if the volume-weighted average price of the Company's common shares exceeds a 50% premium to the Conversion Price for over 20 consecutive trading days within three months from the proposed date of conversion. The Company determined that the new terms of the Convertible Amendment were not substantially different from the original terms and, accordingly, accounted for the Convertible Amendment as a non-substantial modification. The amendment to the conversion feature did not change its equity classification.

During the three and nine months ended September 30, 2025, the Company issued nil shares (September 30, 2024 – 1,109,382 and 2,906,733) as payment for interest (September 30, 2024 - \$555 and \$1,672) on the convertible note facility.

RSUs

Each RSU is redeemable into one common share of the Company.

During the three and nine months ended September 30, 2025, the Company granted nil and 1,750,214 RSUs (September 30, 2024 – nil and 2,422,857) at an average fair value of C\$nil and C\$0.70 (September 30, 2024 – C\$nil and C\$0.80) each to employees of the Company. The RSUs will vest in two equal installments on the first and second anniversaries of the grant date.

During the three and nine months ended September 30, 2025, 5,384 and 977,767 (September 30, 2024 – 174,358 and 817,358) RSUs were redeemed for an equal number of common shares of the Company.

DSUs

Each DSU is redeemable into one common share of the Company.

During the three and nine months ended September 30, 2025, the Company granted nil and 1,025,163 DSUs (September 30, 2024 – nil and 1,053,125) to directors of the Company. The DSUs are fully vested on the grant date at an average fair value of C\$nil and C\$0.75 each for the three and nine months ended September 30, 2025, respectively (September 30, 2024 – C\$nil and C\$0.79).

During the three and nine months ended September 30, 2025, nil and 740,497 DSUs (September 30, 2024 – nil and nil) were redeemed for an equal number of common shares of the Company.

(d) Performance Share Units (“PSUs”)

The Company has adopted a PSU plan to award PSUs to certain officers and employees of the Company. All PSUs will be subject to performance criteria that will determine the number of units that vest, typically cliff vest over a three-year performance period, and is cash-settled.

The Company recognizes share-based compensation expense related to the PSUs over the vesting period. Each reporting period, the fair value change in the PSU liability is charged or credited to earnings with a corresponding amount recorded within other non-current liabilities for amounts to be settled in excess of one year, and in trade and other payables for amounts expected to be settled within one year of the balance sheet date. The fair value is dependent on quoted share prices of the Company and peer group, the elapsed portion of the vesting period, the number of PSUs expected to vest, and the PSU performance multiplier.

On May 13, 2025, the Company granted 820,897 PSUs (September 30, 2024 – nil) to officers and employees at a grant date fair value of C\$2.12 each. The number of units that will cliff vest will be determined by the Company’s relative share price performance against the VanEck Junior Gold Miners ETF (“GDXJ”) over a three-year period (“PSU performance multiplier”). The PSU performance multiplier ranges from 0% to 200% and is capped at 100% if the Company’s share price performance is not positive.

	PSUs	
	Outstanding (#)	Weighted average grant date fair value (C\$)

Dividends distribution	(13,190)	-
Closing balance	\$4,746	\$6,222

Effective August 19, 2025, the Company amended its mining convention with the State of Burkina Faso to increase the State’s free carried interest in Orezone Bomboré S.A. (“OBSA”) from 10% to 15% in accordance with the new 2024 Mining Code, thereby reducing the Company’s ownership interest from 90% to 85% at the same time. OBSA is the owner of the Bomboré mine.

Concurrently, OBSA declared a dividend to its shareholders in an amount equal to its accumulated earnings to December 31, 2024 as measured under OHADA accounting principles. The State’s share of this dividend was XOF 7.4 billion (\$13.2 million) which was subsequently paid by OBSA to the State on August 25, 2025.

Given the increase in the State’s free carried interest was a transaction that resulted in changes in ownership but with no changes in control, it was accounted for as transactions with equity holders in their capacity as equity holders. As a result, no gain or loss was recognised in profit or loss, and instead it was recognised purely in equity as a transfer between accumulated deficit and NCI. No other adjustments to equity took place given no consideration was exchanged in relation to the transfer of shares.

12 INCOME TAXES

The Company estimates the effective tax rates expected to be applied for the full year and uses these rates to determine the income tax provision in interim periods. The impact of changes in judgements and estimates concerning the probable utilization of losses and other tax attributes are recognized in the interim period in which they occur. The effective corporate income tax rate in Burkina Faso is 27.5% (2024- 27.5%). In January 2024, the Burkina Faso government introduced a temporary special levy of 2% on after-tax profits for the 2023 and subsequent tax years, effectively increasing its corporate income tax rate by another 1.45%.

The current income tax expense for the three and nine months ended September 30, 2025 was \$11,265 and \$31,032 (September 30, 2024 – \$5,840 and \$18,370). The following table summarizes the income tax payable at September 30, 2025:

	September 30, 2025	December 31, 2024

14 FINANCIAL INSTRUMENTS AND RISKS

The Company's existing operations involve the exploration, development, and mine operation of its Bomboré mine in Burkina Faso which exposes the Company to a variety of financial instrument related risks. These risks include foreign currency risk, liquidity risk, credit risk and other risks. The Company's board of directors provides oversight for the Company's risk management processes.

(a) Foreign currency risk

The Company is exposed to currency risk due to business transactions in foreign countries. The Company mainly transacts in United States dollars, Canadian dollars, Euros, and XOF. Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Exchange rate fluctuations may affect the costs that the Company incurs in its operations. There has been no change in the Company's objectives and policies for managing this risk during the nine months ended September 30, 2025.

The \$ equivalent of the Company's financial instruments by originating denomination currency was as follows:

A 10% weakening against the US\$ of currencies to which the Company had exposure would have had the following gain (loss) effects (a 10% strengthening against the US\$ would have the opposite effect):

	September 30, 2025	December 31, 2024
C\$	(\$1,302)	\$419
EUR & XOF	\$9,981	\$2,461
Others	(\$2,733)	(\$33)

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting its financial obligations as they fall due. The Company manages its liquidity by preparing cash flow forecasts on a regular basis to assess whether the Company will likely have sufficient cash resources to meet its future operational, capital, and working capital requirements.

¹ The financial instruments held in EUR and XOF have been presented together as the XOF is pegged to the EUR.

The following table summarizes the contractual maturities of the Company's operating, capital and financing commitments at September 30, 2025, shown in contractual undiscounted cashflows:

	Within 1 year	Between 1 and 5 years	Thereafter	Total
Trade and other payables	\$57,884	-	-	\$57,884

Debt	48,935	82,435	-	131,370
Total	\$135,288	\$82,657	-	\$217,945

The Company's capital commitments primarily relate to non-cancellable purchase orders or contracts entered into by the Company with respect to the construction of Phase II Expansion at the Bomboré mine.

Debt presented includes both contractual principal and interest payments and excludes the exercise of the equity conversion rights of the convertible notes.

The Company has a silver stream to deliver 50% of future silver production from the Bomboré mine to the stream holder with minimum annual silver delivery obligations, which if not met, will require shortfall payments by the Company. At September 30, 2025, the Company has accrued for a shortfall of 68,972 silver ounces for which payment will be due in first quarter of 2028.

(c) Credit risk

The Company's cash and other receivables are exposed to credit risk, which is the risk that the counterparties to the Company's financial instruments will fail to discharge their obligations to the Company. The amount of credit risk to which the Company is exposed is considered insignificant as the Company's cash is held with highly rated financial institutions in interest-bearing accounts and the concentration of cash held in any one institution is regularly monitored.

(d) Fair value measurements

The following table sets forth the Company's financial instruments measured at fair value by level within the fair value hierarchy.
